Creating a new way of living

Arranging a free home design visit with one of our experts is the first step to creating your dream kitchen.

They will discuss your requirements, take measurements and then invite you to our showroom for a presentation of your kitchen design concepts. You will be shown drawings and a 3D visual walk-through on our large flat screen display while we chat it through over a fresh coffee.

A range of doors styles, handles, worktops and accessories are all available to browse at our showroom, giving you added **inspiration** should you need it.

Your choice of kitchen usually starts with the style of door and handle. Shaker kitchens and in-frame kitchens offer a traditional panelled look, whilst modern doors offer a smooth finish.

You will be shown drawings and a **3D walk through** on our large flat screen display at our showroom where you can make those subtle changes to fit your lifestyle.

In addition to **150+ stock colour finishes**, many of our fabulous designs are also available in a choice of bespoke colours to bring a more personalised feel to your new kitchen and better reflect your particular tastes.

Pride, passion and craftsmanship

Established in 2002, we have built an enviable reputation for not only creating beautiful hand crafted bespoke kitchens but also by offering the kind of customer service that others can only aspire to.

All our kitchens are constructed in our factory using traditional methods with obsessive attention to detail.

We are confident that you will not find a comparable kitchen built quite like a Hampton kitchen.

All of Hampton kitchens come with a **5 Year Guarantee** on carcasses only. Hinges and drawer runners supplied by either Blum or Hettich are guaranteed for life. Terms and Conditions apply*

All of Hampton's kitchens are **built better to last longer**. Hand finished 18mm rigid colour coded carcasses, glued and dowelled with 18mm solid backs and 2mm edging.

Transforming the space you love

This classic Shaker kitchen and living space renovation was created for a client in Solihull who was looking to transform her way of living.

She was seeking to create an open plan family living space in her Victorian house with a balance between elegant traditional and practical functionality.

We worked closely with our client throughout the project, from planning, construction through to the final kitchen installation.

Our kitchens team **collaborate closely** with our other services where required. When it comes to transforming your home, we're one company you can rely on to get everything done.

"I'm so delighted with the quality finish and fitting of my new kitchen. The Farrow & Ball paint colour on my doors looks fantastic and matches the other elements of my design."
